225706 RIVERGUM

2257OG OLIVE

225703 ROSE QUARTZ

(ONLINE EXCLUSIVE)

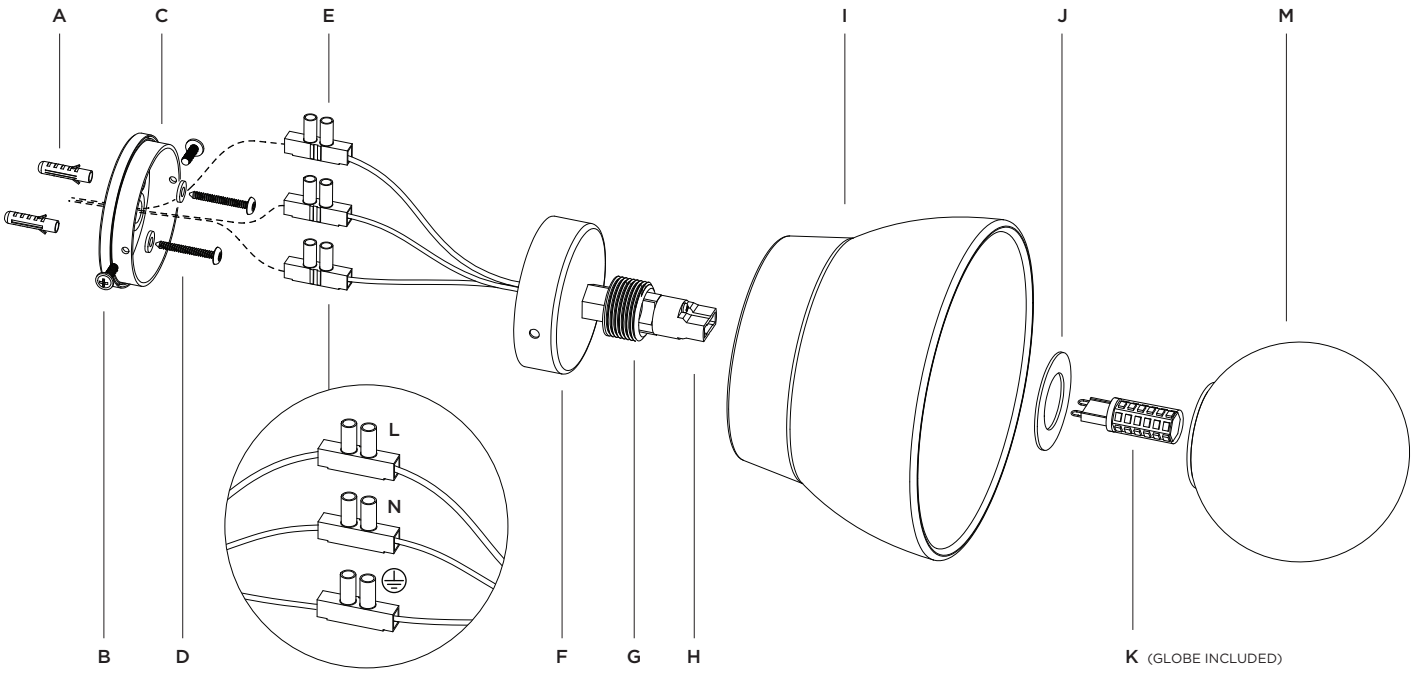

Due to the nature of clay and our manufacturing process, variations on shade, colour, and size are a natural feature of ceramic product fired at high temperature.

ROBERT GORDON

INTERIORS

Thank you for purchasing high quality Australian made product, proudly designed and crafted by Robert Gordon Pottery. All our ceramic lighting products are made from high fired stoneware and adhere to all Australian standards and requirements.

To ensure correct function and safety, please read and follow all instructions carefully before assembly. Keep this document handy for future reference.

Installation instructions

1. Remove all packaging material from lighting product. Be carefully not to discard any small parts such as screws that may be hidden within the boxing.
2. Use the mounting bracket **(C)** as a template to mark the screw positions on wall.
3. When happy with position, install the mounting bracket **(C)** onto wall by mounting screws **(D)**, using wall anchors **(A)** if required.
4. Make sure main supply is turned off. Connect the mains supply wire to the terminal block **(E)**. Ensure the wires are secure and that no bare wires are exposed.
5. Install the luminaire **(F)** onto the mounting bracket **(C)** using the fixing screws **(B)** provided.
6. Install the LED globe **(J)** into the lamp holder **(H)** with a tissue or clean gloves. Be sure not to touch with bare hands, as this could shorten the life of the globe.
7. Carefully position ceramic shade **(I)** over threaded ring **(G)** until the piece makes contact with wall.
8. Whilst holding ceramic shade **(I)** in place, install washer **(J)**, then glass ball **(M)** onto the threaded ring **(G)** by turning clockwise. Turn until all pieces are secure but do not over-tighten as this may cause either ceramic or glass pieces to break.
